

NEW DESIGN

Enjoying Aso begins the moment your journey starts.

However long the journey may be, traveling between destinations is an essential part of the adventure. That's why we've carefully designed your ride, from spacious seating for a relaxing journey to smooth, effortless boarding and disembarking. By reducing the stress of travel, you can enjoy your time in Aso and take in its breathtaking landscapes in greater comfort.

We've upgraded our taxis! 👍

Here are 3 key features of our new taxis

For a safer journey.

To ensure you can enjoy your trip with safety and peace of mind, we've equipped our vehicles with non-slip flooring and a flat, step-free interior. We've also added a step at the entrance for easier boarding and disembarking.

Comfort to the very end.

We've introduced highly cushioned seating designed to reduce fatigue, even on longer journeys.

A new ride that complements Aso.

Featuring a distinctive black design (rare for this type of vehicle!), our taxis turn your Aso trip into a better experience.
